

AMM's 6240

DESCRIPTION

Is a blended alcohol solvent system of minimum 99.8% purity, specifically designed to be cleaning harden residue and fluxes.

Compatible removes Silicon base coating material.

APPLICATION

Solvent AMM's 6240 can also be used as a mild solvent to remove polar and non- polar contaminants like grease, stain marks and ionic salts residues.

Usage instruction: Can use dipping, Spay and brushing with parts cleaning.

Environmentally safe with no ODS (under the class I and class II substance clean act amendments1990)

Complete volatile

Non Flammable

Non-ionic and non-corrosive

PHYSICAL PROPERTIES

O.D.S.: Zero

APPEARANCE: Clear

ODOR: AEROMATIC

BOILING POINT: 68 Degree C

SOLUBILITY IN WATER: SLIGHT

SPECIFIC GRAVITY (AT 20 DEG C): 1.350

FLASH POINT: NULL

TOXICITY: 800 PPM .

PH: 6.5

PACKING

20 Liters per Carboy / 5 Liters per bottle
